Promoting
collaboration among RIs

**FORUM on
International Cooperation among Environmental
Research Infrastructures**

Pennel Discussion

Xiuzhen Li

**State Key Laboratory of Estuarine and Coastal Research
East China Normal University**

19 November 2018
Boulevard St. Michel 80, Brussels, Belgium

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 654131

www.coop-plus.eu

What would be in your opinion the most important elements needed to ensure the value added of the International Committee

- **Long term and stable financial support, e.g.**
 - State Key Laboratories (SKL...)
 - China Ecological Research Network (CERN)
 - International Joint Laboratories
- **Invite committee members from administrators on scientific research programs, so that they can hear the voice from the committee, e.g.**
 - MoST: Ministry of Science & Technology
 - NSFC: National Natural Science Foundation of China

How the International Committee could contribute for the alignment of the forthcoming international funding programs

- Introduce our key proposals to important **funding agencies in major countries and international organizations**
- Invite some of the officials to participate in meetings like this

Which are the priority actions to facilitate sharing and reuse of knowledge among Environmental Research Infrastructures worldwide

- **International Joint Projects**
- **Joint training of PhD students and young scientists (CSC scholarships)**
- **International workshops with focused themes**
